

Lead Service Line Inventory Project

It has been determined that this property has the potential of containing a Lead Service Line running from the Meter to the Dwelling

This Door Hanger represents an attempt to identify the type of water service line buried below the property

is requesting your assistance in identifying the type of line coming to your home

Please contact us at:

At your earliest convenience to inform us of the material of the water service line coming into your home

If you do not know the material of the water service line coming into your home utility personnel can provide assistance in confirming the line material at no charge with your consent

**For information
from the EPA
on the effects
of lead in
drinking water
please scan this
QR Code**

appreciates your cooperation with this project

With your help we will be able to identify all of the lead service lines in our community and work towards their eventual replacement.
