Hurricane Michael:

- Florida Rural Water Website Updates (FRWA.net).
- NY Times videos: Michael’s wake, aerial footage, “Trees Flying By” (NYT).
- Rural Water Emergency Responders to Help (Route Fifty news).
- Senator Rubio, “Rural areas badly hit and some cut off, that is my focus…” (CNN video).
- Professor blames climate change-denying Republicans for harming people (Guardian.com).
- Another professor and Nicholas Kristof fight it out on Twitter over “increasing” frequency and intensity of hurricanes (Twitter).
- Vice President Gore explains how climate change made Michael more severe (PBS NewsHour).
- Ark. Rural Water mobilizing generators to help Florida (Photo/Twitter).
- President Trump holds briefings on hurricane from DHS and FEMA live on camera (YouTube.com).

Senate Passes "Rural Water Friendly" Water Bill, President to Sign Soon (NRWA statement): Senate author of bill goes to Senate floor to announce Arkansas Rural Water Association backs the bill (YouTube). Arkansas Senator relies on endorsement of Dennis Sternberg to explain new federal water infrastructure bill (Times Record.com). NRWA summary of SDWA provisions in the legislation (section by section).

New York City’s Famed Tap Water’s Strange Odor (NYPost).

Kansas Former Water Operator Indicted in Federal Court for Falsifying Bacteriological Samples: He faces up to five years in federal prison and up to $250,000 in fines for each count if he’s convicted (Kansas.com).

Newspaper Features NYRWA Smoke Testing with Deep Purple Reference (Smoke on the Wastewater).

Could New Supreme Court Justice Kavanaugh be the Vote to Overturn Key Parts of the Safe Drinking Water Act: Constitutional law experts are focusing on the new court’s interpretation of the nondelegation doctrine under the U.S. Constitution. On Oct. 2, the court heard oral arguments in Gundy v. United States which focuses on nondelegation doctrine — the rule that Congress cannot transfer its power to legislate to another branch of government without specifying an “intelligible principle” to guide its delegation of authority. Under the Safe Drinking Water Act, the EPA Administrator is provided “sole judgement” authority in determining whether to regulate a substance (i.e. create a new MCL). The issue is particularly timely considering that EPA is deciding whether or not to craft MCLs for perchlorate and PFAS (and cyanotoxins, manganese, more HAAs, bromide, etc.).

Senator Cardin Introduces Bill (S. 3564) to Assist Low-income Households with Paying Water Bills.

The National Rural Water Association is the country’s largest public drinking water and sanitation supply organization with over 30,000 members. Safe drinking water and sanitation are generally recognized as one of the most essential public health, public welfare, and civic necessities.
